

10 Ton Precision Injection Molding 500000 Mold Life Polishing Surface Finish

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Lead Time: 3-4 Weeks
- Mold Life: 500,000-1,000,000 Shots
- Mold Base: LKM, HASCO, DME, Etc.
- Weight: Max. Mold Weight: 10,000kg
- Equipment: CNC, EDM, Wire-Cutting, Etc.
- Material: ABS, PC, PP, PA, POM, Etc.
- Surface Finish: Polishing, Texturing, Painting, Etc.
- Process: Injection Molding, Overmolding, Insert Molding, Etc.
- Highlight: **10 Ton Precision Injection Molding ,
Polishing Precision Injection Molding**

Product Description

Product Description:

Injection Molding Services is a professional manufacturer providing customized solutions for plastic molding, injection molding, overmolding, insert molding and other related processes. We offer a wide variety of material options, such as ABS, PC, PP, PA and POM, and a variety of surface finishes, such as polishing, texturing and painting. Our maximum mold size is 1500 x 1200mm, and we guarantee a mold life of 500,000–1,000,000 shots. Our services are designed to meet the high standards of our customers and our experienced engineers and technicians ensure the quality of the final product. We specialize in molding injection services and plastic injection molding, and are committed to providing our customers with the highest quality molding products and services.

Features:

Product Name: Injection Molding Services

Tolerance: $\pm 0.05\text{mm}$

Lead Time: 3-4 Weeks

Surface Finish: Polishing, Texturing, Painting, Etc.

Mold Base: LKM, HASCO, DME, Etc.

Service Type: Injection Service Molding, Process Injection Molding, Molding Process Injection

Technical Parameters:

Parameter	Value
Surface Finish	Polishing, Texturing, Painting, Etc.
Equipment	CNC, EDM, Wire-Cutting, Etc.
Size	Max. Mold Size: 1500 X 1200mm
Process	Injection Molding, Overmolding, Insert Molding, Etc.
Cavity	Single Or Multi-Cavity
Software	UG, Pro/E, SolidWorks, Etc.
Tolerance	$\pm 0.05\text{mm}$
Mold Life	500,000-1,000,000 Shots
Weight	Max. Mold Weight: 10,000kg
Lead Time	3-4 Weeks

Applications:

YWY Brand Injection Molding Services provide high-quality plastic injection molding services for a wide range of applications and industries, such as automotive, medical, aerospace, consumer products, and more. The model number YWY333 offers a large mold size of 1500 X 1200mm. Our services are available with a variety of equipment such as CNC, EDM, and wire-cutting machines. We also provide a range of mold base options including LKM, HASCO, DME, etc. The surface finish options include polishing, texturing, and painting, etc. Our lead time of 3-4 weeks makes us a reliable partner for your injection molding needs. YWY injection molding services are your trusted partner for plastic injection molding, molding injection service, and molding plastic injection.

Customization:

Injection Molding Services

Brand Name: **ywy**

Model Number: **ywy333**

Place of Origin: **guangdonghuizhou**

Weight: Max. Mold Weight: **10,000kg**

Mold Base: **LKM, HASCO, DME, Etc.**

Surface Finish: **Polishing, Texturing, Painting, Etc.**

Service Type: **Injection Molding Services**

Process: **Injection Molding, Overmolding, Insert Molding, Etc.**

Our **Injection Plastic Molding** service offers you the advantage of quality, precision, and cost effectiveness. We specialize in **Injection Molding Service** and **Molding Process Injection Molding** to give you a cost-effective solution to your **Plastic Injection Molding** needs.

Support and Services:

Injection Molding Services Technical Support and Service

- Provide specialized expertise in injection molding.
- Offer detailed consultation for design, prototyping, and production of injection molding projects.
- Troubleshoot molding issues and develop solutions.
- Provide on-site support and necessary personnel training.
- Provide technical support for molding machine maintenance.
- Provide best practice recommendations for injection molding processes.
- Evaluate and modify existing injection molding processes.
- Analyze and optimize plastic part designs.
- Develop and implement process controls.
