Product Specification

±0.01mm
100% Inspection Before Shipment
Aluminum, Steel, Brass, Etc.
Standard Export Carton Or Customized
Automotive, Aerospace, Medical, Etc.
Customized
7-15 Days
CNC Machining, Turning, Milling, Etc.
Customized CNC Machined Parts, Professional CNC Machined Parts, Aluminum CNC Machined Parts

Product Description:

We offer CNC-manufactured components to meet your specific requirements. Our parts are designed using the latest CAD software and manufactured using state-of-the-art CNC machines. We can create custom parts of any size and shape, to meet your exact specifications. Our expert team of engineers and technicians work closely with you to ensure that your CNC machined parts are tailored to your unique needs.

Our MOQ is only 1 piece, so we can handle both small and large orders. We accept drawing formats in PDF, DWG, IGS, STEP, and more, to make the ordering process as convenient as possible.

At our manufacturing facility, we use only the highest quality materials, including aluminum, brass, copper, stainless steel, and titanium. Our quality control team inspects every part before shipment to ensure that they meet our strict standards of quality and accuracy. We understand the importance of timely delivery and offer flexible shipping options to meet your needs. We use standard export cartons for packaging, but we can also customize packaging to meet your specific requirements.

Trust us for your CNC machined parts needs. Contact us today to get started on your custom order.

Features:

Product Name: CNC Machined Parts

Material: Aluminum, Steel, Brass, Etc.

Delivery Method: DHL, FedEx, UPS, Etc.

Size: Customized

Processing Method: CNC Machining, Turning, Milling, Etc.

Lead Time: 7-15 Days

Our CNC Machined Parts are precision machined parts made from a variety of materials such as aluminum, steel, and brass. They are created using computerized numerical cutting technology and various processing methods, including CNC machining, turning, and milling. We offer customized sizes and delivery options through DHL, FedEx, and UPS. Expect a lead time of 7-15 days for our high-quality CNC-machined components.

Technical Parameters:

MOQ	1 Piece
Application	Automotive, Aerospace, Medical, Etc.
Delivery Method	DHL, FedEx, UPS, Etc.
Drawing Format	PDF, DWG, IGS, STEP, Etc.
OEM/ODM	Acceptable
Tolerance	±0.01mm
Surface Treatment	Anodizing, Plating, Painting, Etc.
Packaging	Standard Export Carton Or Customized
Material	Aluminum, Steel, Brass, Etc.
Lead Time	7-15 Days
The CNC menufactured components, numerically controlled machining parts, and computer aided manufacturing parts have the technical	

The CNC-manufactured components, numerically-controlled machining parts, and computer-aided manufacturing parts have the technical parameters as above.

Applications:

Our CNC-machined parts are certified for quality, and we require a minimum order quantity of 50 pieces, with prices ranging from \$2.35 to \$12.68 per piece. Our packaging details include EPE foam, anti-rust paper, stretch film, plastic bag, and carton, and delivery timeframes are quick, taking only 1 day.

We accept various payment terms and have the ability to supply up to 1000000 pieces per month. Our CNC-machined parts are made from a range of materials including aluminum, steel, brass, and more, with packaging available in standard export cartons or customized options.

Our CNC-machined components are built with precision, with tolerances of ±0.01mm. They are versatile and can be used in various industries, including automotive, aerospace, medical, and more. Our OEM/ODM services are also available, providing customers with customized products that meet their specific requirements.

Our CNC-machined parts are perfect for use in numerous scenarios, including:

Automotive: Our CNC-machined components are used in the production of automotive parts and accessories, including engine parts, transmission components, and more.

Aerospace: Our CNC-machined parts are used in the manufacturing of aircraft components, including engine parts, landing gear, and more.

Medical: Our CNC-machined components are used in the production of medical devices and equipment, including surgical instruments, implants, and more.

Electronics: Our CNC-machined parts are used in the production of electronic components, including circuit boards, connectors, and more.

In summary, Yuanwenyu is a leading provider of CNC-machined parts, with a wide range of applications and scenarios. Our CNCmachined components are built with precision and are made from high-quality materials, ensuring their durability and reliability. Contact us today to learn more about our products and services!

Customization:

Our yuanwenyu brand offers CNC machined parts with model numbers 1X893 and OEM. These computerized machining parts are made in Guangdong, China and have passed our certification standards. The minimum order quantity for our products is 50 pieces, priced at \$2.35 - \$12.68/piece. Our packaging details include EPE foam, anti-rust paper, stretch film, plastic bag + carton. We have a delivery time of 1 day and accept payment terms that are convenient for you. Our supply ability is 1000000 Piece/Pieces per Month. Our Computer-controlled machining parts are suitable for various applications such as automotive, aerospace, medical, and more. We ensure quality control through 100% inspection before shipment. Our surface treatments include anodizing, plating, painting, etc. Delivery methods include DHL, FedEx, UPS, etc. The lead time for our products is 7-15 days.

Support and Services:

Our CNC Machined Parts come with comprehensive technical support and services to ensure that our customers receive the best possible experience with our products. Our team of highly skilled technicians are available to answer any questions you may have about the product, as well as provide guidance on installation and maintenance. Additionally, we offer repair and replacement services to ensure that your CNC Machined Parts are always functioning at their best. For more information on our technical support and services, please contact us.

Packing and Shipping:

Product Packaging:

All CNC machined parts will be carefully wrapped in protective material to prevent scratches and damage during shipping.

The parts will then be placed in a sturdy cardboard box with appropriate cushioning to ensure they arrive safely at their destination. Shipping:

Shipping will be handled by our trusted shipping partners who will ensure timely delivery of your order.

We offer both domestic and international shipping options to meet your needs.

Shipping costs will be calculated based on the destination and weight of the order.

You will receive a tracking number once your order has been shipped so you can track its progress.

FAQ:

Q1. What is the brand name of the CNC Machined Parts product?

A1. The brand name of the CNC Machined Parts product is yuanwenyu.

Q2. What is the minimum order quantity for the CNC Machined Parts product?

A2. The minimum order quantity for the CNC Machined Parts product is 50 pieces.

Q3. What is the price range for the CNC Machined Parts product?

A3. The price range for the CNC Machined Parts product is from 2.35 to 12.68 per piece.

Q4. What is the packaging detail for the CNC Machined Parts product?

A4. The packaging details for the CNC Machined Parts product include EPE foam, Anti-Rust Paper, Stretch Film, Plastic Bag, and Carton.

Q5. What is the delivery time for the CNC Machined Parts product?

A5. The delivery time for the CNC Machined Parts product is determined by the location of the customer and is usually within one month from the time of order.
